Guide to activate advanced features in GoSign PRO (DESKTOP)

CONTENTS

Overview

GoSign Desktop PRO offers additional features that are not included in the FREE version. The PRO version also lets you work on several documents at the same time.

License Purchase

The InfoCert site dedicated to <u>digital signatures</u> provides all the information you need on GoSign Desktop PRO additional features.

You can choose the license package that best suits your needs, then click on *Buy Now* button to go to the purchase configuration page.

You can also purchase a subscription that is longer than the contractually agreed one-year subscription.

Click on *Continue* to purchase the license on the InfoCert Store.

To complete your purchase, login using your InfoCert Store credentials.
If this is your first time making a purchase, you will need to register using the form in the Store.

After login, select a method of payment, bearing in mind that if you choose a bank transfer, the purchase will be confirmed only once we receive payment.
The invoicing information saved in InfoCert is displayed.
If you are unsure whether your data is up to date, now is the time to check your information and correct it, to ensure you receive the correct electronic invoice for the purchase.
If the information are correct, you can click on *Complete the Purchase* and finalize your order.

Verify data and proceed to checkout

Access to GoSign Desktop

When you start GoSign Desktop, you will be asked to log in with your InfoCert credentials (Customer Area) or, if you do not have one, to register a new InfoCert account.
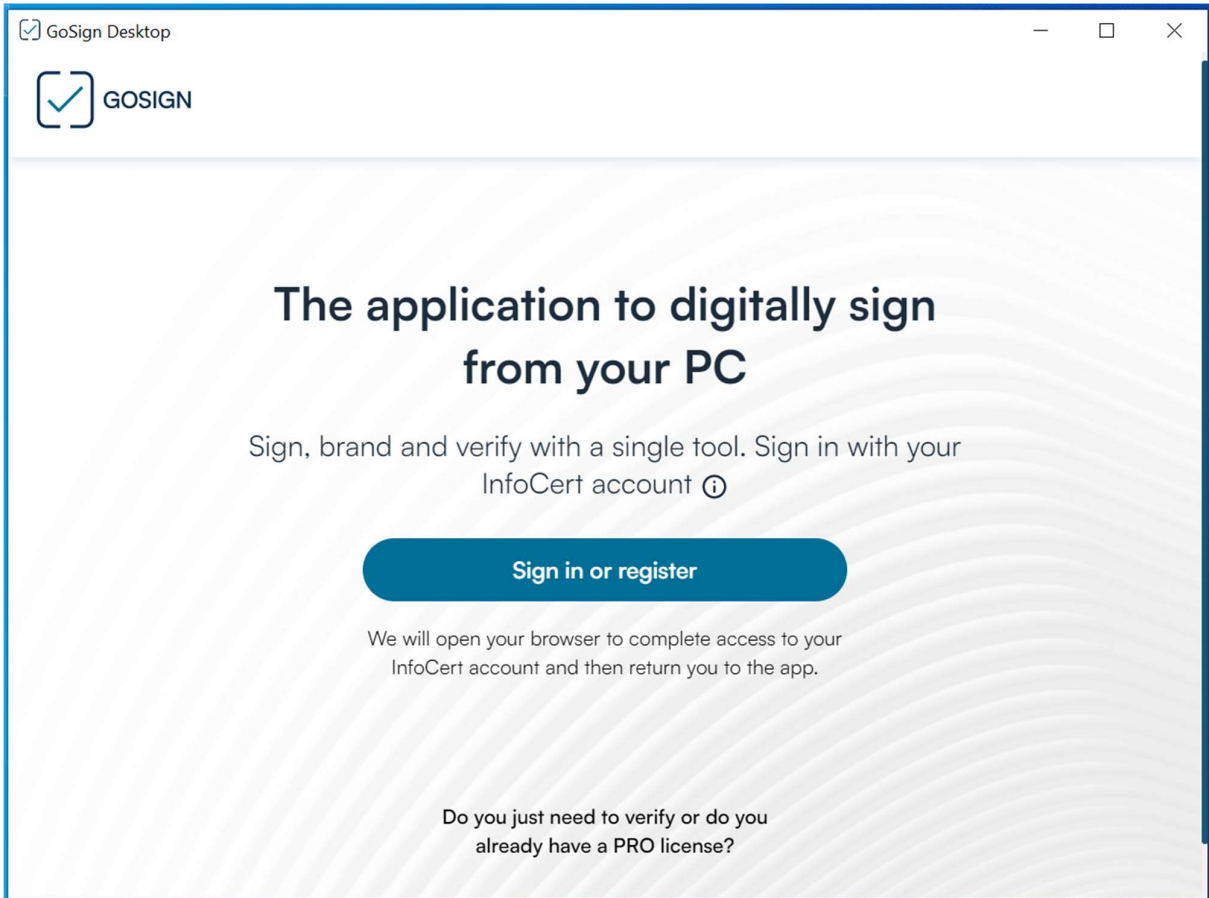

One click allows you to be redirected to the authentication page where you can register your new account (Customer Area) or log in using one of the InfoCert accounts you have.

If you do not log in with your InfoCert Store credentials (Customer Area), **the only possible operation will be the "Signature Verification"** on a document.

PRO License Registration

On the GoSign Desktop software home page, go to **User profile** with the *License* section.
In this section you have to enter the code number of the PRO license that was sent by email from InfoCert and then proceed with the activation by clicking on the *Confirm* button.
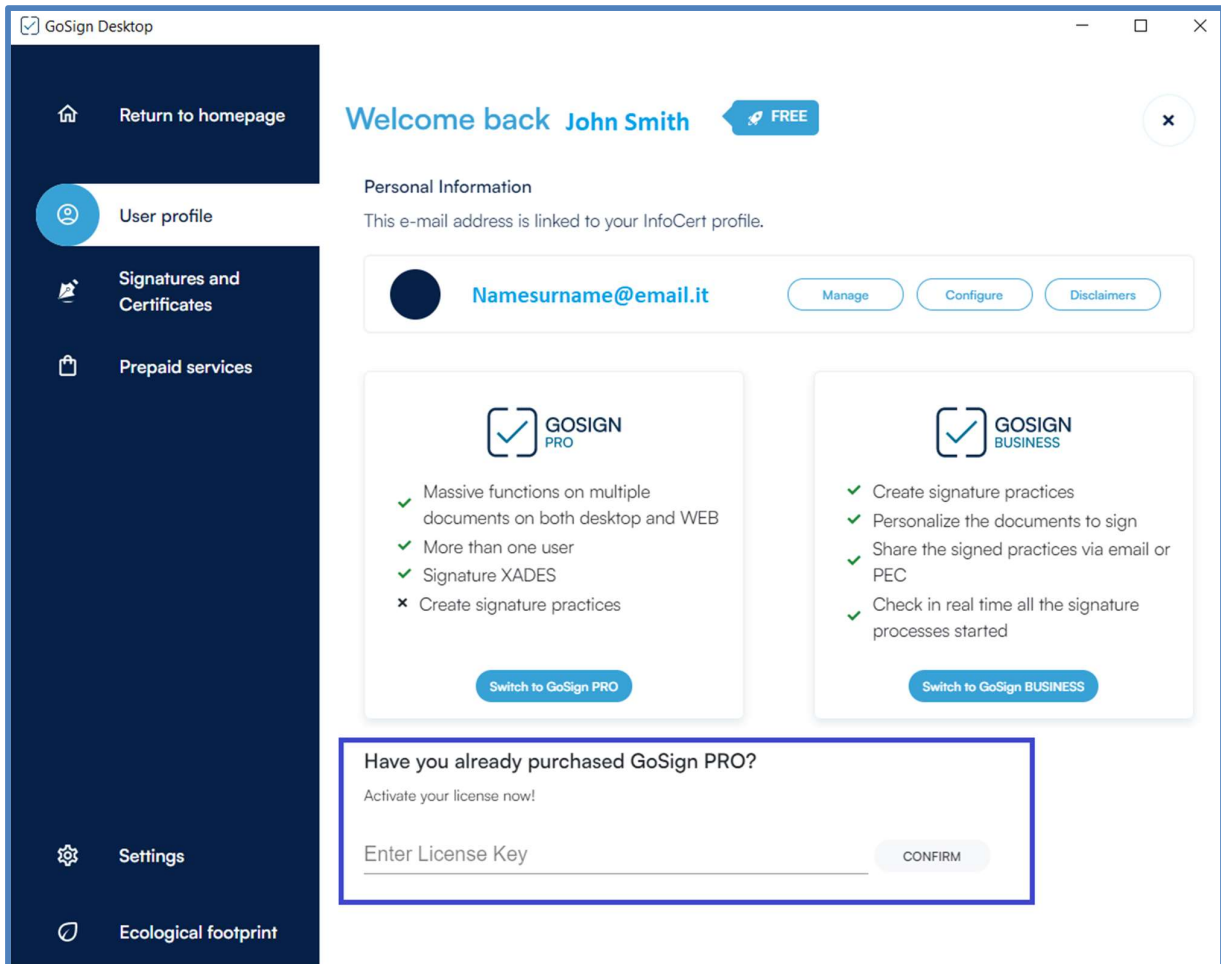

GoSign Desktop PRO confirms the successful update by showing the currently active PRO license key.
To verify the successful installation of the license, simply close the *User profile* section to verify that the new features are active on the application by clicking on the **X** at the top right.
